DYNAMO

- Features**
- Designed and constructed to achieve heavy duty outputs and to meet the demands of varied Indian conditions.
 - Low resistance PE envelope with glass mat separators to improve vibration durability and prevent internal shorting assuring maximum conductivity.
 - Low maintenance construction ensures maximum battery performance and life.
 - Special alloy grid for low maintenance, low corrosion & excellent performance in all terrain conditions.
 - Aesthetically designed container and cover made of PP co-polymer have a special toughness, enabling the battery container to resist flexing under extreme vibration.
 - Special paste formulation for long life & high cranking performance.
 - Nationwide sales and service support.

Specification *

Model	Volt	Capacity C20	Bench charging	Dimensions (in mm)			Approx. Battery weight with acid (Kgs)
				L	W	H	
BD 100	12	99	5	410	173	232	29.8
BD 120	12	120	6	511	183	238	37.7
BD 135	12	135	7	511	183	238	39.7
BD 150	12	150	8	510	213	231	46.3
BD 180	12	180	9	518	275	238	57.0
BD 200	12	200	10	518	275	238	57.0

Bench charging: Charged batteries stored /unsold / not used for period of 1 month shall be given a recharging @ 5% of C20 capacity rate current. The battery is considered as fully charged as the CCV value reaches 15.5 - 16volts.
